- (0) Introductions
- (1) Eat food
- (2) Look at Kivy Calculator on Android device
- (3) Build Django Hello World Example1
- (4) Build Django Hello World Example2
- (5) Announcements** 
- (6) Fin

# Annoucements

- In my free time, I'm building a website to help students grade each other's homework in the web. It's called Peer2Grade. Here is a demo:

<http://youtu.be/3VPxN2VL3uE>

- The calculator app we designed from the last meetup now works on my phone. The online repo is:

<https://github.com/sudouser2010/simple-calc>
